

The first time you log in to GoQuest, you will answer some questions about what subjects you like to study and which activities interest you.

Welcome to GoQuest Learning!

Please get started by completing your learning profile below.

You will click into each section of the profile and complete the questions. Depending on the version of the profiler given, questions will vary.

Profile Results

When the profile is complete, you see your results immediately.

When you hover over the circles, you can learn more about each result.

If you need to redo or adjust your profile, you can click on the **Edit** button in the top right corner. This opens up your profile questions and answers, where you can change the section you want to edit.

Select from the questions below to change your answers.

From there, you can click on a question, make the change, and when completely finished - click **Save Changes**.

Changing the Profiler Type

The best place to change the type of profile you are given is to ask your teacher to handle it. But sometimes, the need for the change is immediate and it would help if you could just do it yourself.

To change the profiler as a student, click on **My Stuff** in the top right corner. Then click on **My Account**.

Scroll down to Your Profile, and select the version that is appropriate.

Warning: Any work that has already been completed on the profile will be deleted and the student must start over.

Your Profile

Standard EZ Spanish

A screenshot of the "Your Profile" section. It features four categories of questions, each with a "Start Profile" button and several "N/A" indicators. The categories are: "Interest Areas and Questions" (3 N/A), "Ability Questions" (1 N/A), "Learning Style Questions" (3 N/A), and "Expression Style Questions" (3 N/A). Each category has a blue "Start Profile" button above its respective question icons.

Tip: Note that there is a Spanish version of the profiler.
